I received this message and am passing it along:

"Hi , I'm searching for a missing (actually stolen) 64 2+2 4 speed with the Vin# 834P63968 It was stolen back in the late 70's by a guy who was an electrician for Chevrolet in Parma ,Ohio . My life was threatened at the time so I never went to the police. I still have the original title. If at all possible could you make this known to your members. I never got over this loss , Thanks, Mike Manko I am still in N. Royalton , OH."

The car has not been registered here on on the 1995 Larry Kosek Registry. If anyone has any knowledge of the car's fate or current whereabouts, please pass it on to me and I will contact Mike.
