

Definition of Terms

New Member to the auto world. Can any one tell me where I can obtain a definition of terms. Expressions and phrases used all the time in the restored car hobby is a challenge for a guy who likes his 2+2 1964 but grew up with out shop, mechanical or racing knowledge. Appreciate your direction. I was told Hemmings produced such a list. Any idea when.

Thank You,

Curtis

Great question. Try some of these:

General stuff:
