Hi . . . born and raised Delawarean here!

I was curious if you had any leads for a 1965 2+2 in Southern California, preferably near LA? I need to take pics of one, but just one photo (rather than a feature), so it won't take too much of someone's time.

I understand that a registry keeps things private, so I am alright if you don't want to give me any names without contacting them first.

Thanks,

Diego Rosenberg"

If anybody can help Diego, please contact him directly.
