Sad news today - famed automotive artist Art Fitzgerald has passed at the age of 96:

Art was a partner with artist Van Kaufman in creating the iconic paintings which made Pontiac sales brochures such a key element of Pontiac's marketing success in the 1960's.

I had the good fortune of meeting Art at several POCl conventions - he was a real gentleman.

Of course, my favorites among his pieces were those featuring the '65 and '66 2+2's:
