

SolarGuard Wholesaler Closeout Deal at RockAuto

Posted by RockAuto - 2016/08/12 11:14

Keep your car, truck or SUV cooler this summer with a SolarGuard Reflective Sunshade Windshield Cover from RockAuto. Forget about the original retail price (currently \$20+ at some stores) and even the original wholesale price. These premium quality sunshades are Wholesaler Closeout priced at less than \$4.00 at RockAuto.com!

The SolarGuard Reflective Sunshade Windshield Cover fastens to the outside of your windshield, blocking the sun's rays from entering the vehicle. Heat does not build up next to the windshield, allowing the interior, the dash and the electronics behind the dash to stay cooler.

There are two available sizes, attached in seconds with an adjustable strap and rail system, to ensure an optimal fit to most cars, trucks and SUVs!

As with all Wholesaler Closeouts, quantities are limited. Find your SolarGuard Reflective Sunshade Windshield Cover in the RockAuto catalog under the "Tools & Universal Parts" tab, in the "Window" category under "Accessories" or simply [click here](#).
