

1967 2+2 Convertible 428, 4speed, tripower

Posted by 2+2=428 - 2016/08/15 22:20

I'm listing this here for Andre Rayman.

This car belonged to his long time friend and fellow member here, Steve Surgeont.

Steve unfortunately passed away on July 27, 2016, following a struggle with lung cancer.

Here are some of the details about the car...

1967 2+2 428, 4speed, tripower, a/c 8 lug wheels, tilt column, wood wheel.
\$35000

Below is part of an email from Steve when he was telling me about his 2+2.

"I have a convertible mariner turquoise 2+2 4 speed w/parchment
int.,PW,A/C,8 lugs,and I basically did an everything gets done restoration.
Body,frameoff,everything."

I'm sure many of you have Facebook so if you have any questions about the car please contact Andre
through there.

Here are some pictures of Steve's car. I'll post more when I can.

Very sorry to hear of Steve's passing. He was one of the very first members to register a 2+2 here, in June 2010. Please express our condolences to his family & friends.

It's a beautiful car. Please ask the eventual buyer to register it in their name.

1965 Tri-Power set up - interesting modification.
Really nice car at a reasonable price IMO.

Bidding is only up to \$20,200 with 2 days left. Too much car to go for so little.
If you want a nice car at a great price, don't miss this one.

No sale on the first go around at \$20,200, so it is up again at [Click here for link](#) with a very reasonable buy-it-now price of \$34,500.

In early October there was a different car on sold through Ebay at [Click here for link](#) . Asking price was \$36,500 - I don't know the sale price.

The value is definitely higher than the bidding would indicate. They only built 445 1967 2+2 convertibles w/4-speed manual, and this is PHS documented as such. Judging by the Registry, there are considerably fewer than that number left.

Anyone who has ever restored one of these land yachts know it is much wiser to buy one done than pay for the restoration yourself. Steve obviously spent a lot more making this a very nice, desirable car than his family can recover. I'm normally a "pure stock" kind of guy, but I like the Tri-Power addition, which is easily worth \$2500 or so. Convertible, air, power windows, 8-lugs....does it get any better? Well, only if you can force 2+ tons of Pontiac down the road using a stick shift...oh yeah, you can with this one. If you've never experienced a Big Pontiac with 6-barrels of air & fuel backed by a 4-speed, you haven't

lived. Very occasionally you'll run up against a quicker car, but I can guarantee that you're still having more fun than they are.

Take a serious look at this car. Don't let it get away.

Looks like this one sold!!

Anybody here buy it?

Whoever did got one heck of a deal on it!

Unfortunately someone hit the b-i-n button by mistake - must be an Ebay novice.
Car is still for sale.

Former Steve Surgeon 2+2 is for sale once again in online auction:
[Click here for link](#)

I spoke with the seller and his spouse apparently is not fond of his involvement in the car hobby. I'm sure she's a very nice lady, but if it were me I'd be re-assessing my marital status (if my wife is reading this, I'm only kidding).

Since its last sale it has had quite a few bugs worked out, so if you considered buying it before, it's a

better buy now. No reserve!

Good news for the new buyer / bad for the seller - winning bid was only \$23K! A bargain.

I suspect that listing it on the same auction site so soon was a contributor to lack of bidding - potential buyers may have been leery that there were hidden issues.
