

Registry patches

Posted by OldInjun - 2017/09/30 13:25

I'm considering adding another item to the Registry Store (somebody's got to pay for this web site) - embroidered logo patches. I'm thinking 2 sizes - approximately 4" wide for a hat or shirt-front, and maybe 7"-9" for a jacket-back.

As a gauge of interest, chime in here to let me know if you have any interest.

Also, if you haven't checked already, we are already offering the following logo items:

Hats

T-shirts

Polo shirts

Coffee mugs

License tags (aluminum)

Please support your local 2+2 Registry!

A glitch in the Store ordering process was just pointed out to me - the current software over-charges for shipping on orders of multiple orders. Pending a software update, I will manually refund any amount above actual shipping costs for orders of multiple items.

My apologies for any confusion.

I would be in for 1 or 2 of the smaller patches.

Patches are available for sale at \$7/each, or 3 for \$15. They're are easy to mail, so shipping will be \$2.50 for any amount up to three. The Registry logo measures 4" wide by 2" high.

Notice that patches are also available for the POCI 2+2 Chapter, measuring 3 1/4" square, at the same

price. You can mix them up in the same order if you choose.

Patches are NOT iron-on - they require sewing.

Proceeds from any Registry patch sales go to support the Registry, Chapter patch sales will benefit the Chapter. They are separate entities.
