

1964 Catalina 2+2 37K obo over 35K

Posted by Richard Bush - 2017/10/25 14:08

This car is number 6983 out of only 7998 built in 1964. It was the only year that they were named CATALINA 2+2. It is loaded with PS/PB/Electric windows (all working)/rear window defroster/AM/FM/Reverb (working)/Electric antenna/Tilt wheel/roll out trunk light/Spare tire cover/Automatic with a four barrel and AC (working). It has the vacuum gauge and the tachometer, both working. New paint. New tires. 8 lug wheels. Black Cordova top in very good condition. Balance plate for the wheels. New fuel pump and PS pump. Frame on restoration with still a little work to do down under. Runs perfect. Shows well. Engine clean and body straight. A true land yacht. Too many cars, so need to let one go. Or best offer over 35k.
