

Stock Limited slip

Posted by tinmantam - 2022/02/27 13:01

Looking for a stock limited slip rear for my '66 421/400 convertible, any leads would be great. Looking for a stock dash mounted tachometer also.

Try Fabcraft Metalworks at this website. I spoke with them a year or so ago and they were developing rear components for '65 and later - not sure if they are available yet. Otherwise, you'll need to find used parts.

I have a collection of factory tachs, ranging from uasble-for-parts to like-new condition. Call me at 302-353-0244 for details.
