Hello everyone,

I have finally decided to sell my 2plus2 after owning it for 26 years. There is so much to talk about, but I will leave the questions up to you. This car is a numbers matching car. Runs very fast and has never been beaten on. The paint looks good and the interior is really nice shape. This car is so much fun to drive! I have only put 53,000 miles on it since I had it. I am asking \$25,000 for her. If your are interested lets talk! Mark
