

1966 2+2 CONVERTIBLE WITH TRI POWER

Posted by OldInjun - 2011/01/09 17:26

I received an email from a gentlemen looking to sell his car. The description below is his:

1966 2+2 CONVERTIBLE WITH TRI POWER 421/425 HP. AUTOMATIC, WHITE WITH BLACK INTERIOR AND BLACK TOP. EIGHT LUG WHEELS, VERY CLEAN SOLID DRIVER.

The car is showing 37,000 miles, which is said to be original. fresh 421 engine. Car needs very very little work, such as right rear quarter glass could stand replacing as well as the window molding. body is very very solid. trunk weather stripping could be replaced as when you wash the car it leaks in center. Paint is an 8 out of 10 and interior is 99%. Top works great, looks brand new. Eight lug wheels are 9 out of 10. Car runs and drives excellent. Located in Pittsburgh Pa.

Looking for a sale price of \$25,000.
