Posted by BigBrother - 2011/01/14 20:02

Found a '65 vert red with black top...eight lugs(engine specs unknown)...being sold at a "garage sale" ad in Fla. contacted and women is selling for step mom after dad past away and car is in daughters garage. The dad bought it in 2004 for \$21k and kept records of every dime he spent on the car...which added up to \$55,000...so they will sell it at a "loss" for \$46k.

Prob a \$25k+ car at best but didn't have the heart to tell her.
