

1965 vapor return line

Posted by 2plustwo1965 - 2011/06/10 19:19

Is it nessasary to have the vapor return line hooked up on my a/c car if I install a vented gas cap

not sure however engineers do things for a reason. If you need the canister contact Steve Snyder at www.indianapontiacs.com he has a couple 65's with ac that still have the set up you need.
