

2+2 rear quarter panel emblems

Posted by free4ross - 2011/11/08 10:15

I posted a want ad for the rear quarter panel emblems and I had one response from a person who had a set of used ones. I don't know how to get in touch with him so I am reposting this hoping he sees it. I would like to buy the used set. Please call me at 903-752-0525 or email me at rossm99@gmail.com

Thanks, Ross

free4ross has a set of emblems now (I sold him mine).

I find it hard to understand why suppliers are not meeting demand for these things, similar to the "421" emblems for the '66 radiator guard / console. They offered them in the past, so it's not as if they need to make new molds.

Come on Ames & PY!
