

Gauge Restoration Recommendation?

Posted by OldInjun - 2011/11/17 18:29

I have several tach's and a rally speedo in need of restoration. Anyone have a testimonial for a good vendor to use - or warning about which ones to avoid?

I had my Camaro tic-toc-tac done by Instrument services inc. They are in HMN page 160 of the Dec. issue. They did a good job and I think the turnarownd was OK, don't know about pricing, I didn't shop around, give them a call they seem to know their business. 1-800-558-2674 Good luck Jack, 8lug

Thanks. That's who I was thinking of using, but I'm open to other suggestions.
