Hello everyone, trying to find the replacement clips for the bodyside moldings. Not having much luck, any advice would be helpful. I've attached a photo for reference.

thanks,  
bernie

I ran into the same problem. I used a few generic plastic ones along with the old ones that were usable. I then spotted them in an old catalog from Restoration Specialties and Supply In Windber, PA. I got their new catalog with some lower windshield outer trim clips, They no longer show them but their product no.11781 might work. RESTORATIONSPECIALTIES.COM or 814-467-9842 or 814-467-9282. My old

catalog was 2004. Kyoat
