

Member's 1966 2+2 Convertible project car

Posted by OldInjun - 2013/02/18 13:37

I received an email from Larry Swint, Registry member. He is restoring the 1967 "Grand Marque 7" (convertible Grand Prix) factory show car, and needs to sell his 2+2 to finance that project:

For sale - 1966 2+2 convertible. Needs complete restoration. The car is originally a 338hp 3-speed manual, now a 389ci w/4-speed, 8 lugs, and buckets with headrests. Have a 1966 421ci 338hp engine available - negotiable. Lots of potential, very worthwhile project. Included is a 1966 2+2 coupe parts car - wrecked, but many usable parts to make the convertible really nice.\$7000. Cars are in Toledo, OH. Call Larry @ 419-471-1397
